

TEAM 3 END OF YEAR NEWS

Hello from Team 3! This has been a busy month. We completed our unit on the history of Lincoln. The students learned many interesting things about our great city. Hopefully they shared some of them with you.

We learned about Personal Health, Social Health, and Emotional/Intellectual Health. Students talked about the importance of taking care of their skin, hair, ears, eyes, and teeth. Here are a few quotes from some students...

Madisen V.-“Sounds travel through your eardrums and grooming helps your hair and body.”

Brendon B.-“You have two different types of glands, sweat glands and oil glands.”

Devon T.-“The dermis is the inside of your skin and the epidermis is the outside of your skin.”

Reyes D.-“The shiny, hard outer part of your tooth is called enamel.”

The third graders filled out passports and “traveled” to three different countries as part of our multi-cultural holiday unit. The students visited Sweden, Mexico, and Israel. Teachers focused on holiday customs and traditions that are celebrated in each of the three countries.

We participated in the holiday food drive to help families in need and had our first “Above and Beyond” drawing. Students who displayed above and beyond behavior earned slips with their name on them. Students whose names were drawn became part of the “snack squad”. They ate lunch with the teachers and then got to have a special dessert afterwards.

In January we will begin our Embryology unit. Our eggs will be delivered on January 16, 2008. The students are really looking forward to this!

Please feel free to contact us at any time.
